Exploring The Depths Of The Ocean

Dive into the cerulean depths of the ocean, where vibrant marine life dances amidst shimmering sunlight and swaying kelp forests. Behold the majestic humpback whale, its massive form gliding effortlessly through the water, its tail creating a symphony of sound.

Witness the awe-inspiring spectacle of a humpback whale breaching the ocean's surface, sending up a spray of water that glistens in the sunlight.

Meet the playful dolphins, their sleek bodies leaping and twisting through the waves, their cheerful clicks and whistles adding to the ocean's enchanting melody. Discover the intricate patterns on the shell of a sea turtle, a testament to the boundless creativity of nature.

Soaring Among The Skies

Ascend to the heavens and marvel at the majestic birds that soar through the azure expanse. Witness the peregrine falcon, its sharp talons extended as it dives towards its prey, its speed unmatched in the avian kingdom.

Glide alongside the elegant osprey, its keen eyesight scanning the water below for fish. Observe the vibrant colors of a parrot as it swoops through a

tropical rainforest. Let the soaring eagle inspire you with its majestic presence, its powerful wings carrying it effortlessly across the skies.

Roaming Across Sprawling Landscapes

Venture into the untamed wilderness and encounter the diverse creatures that inhabit the vast landscapes of the world. Begegn the majestic lion, its regal mane flowing in the wind, its piercing gaze commanding respect.

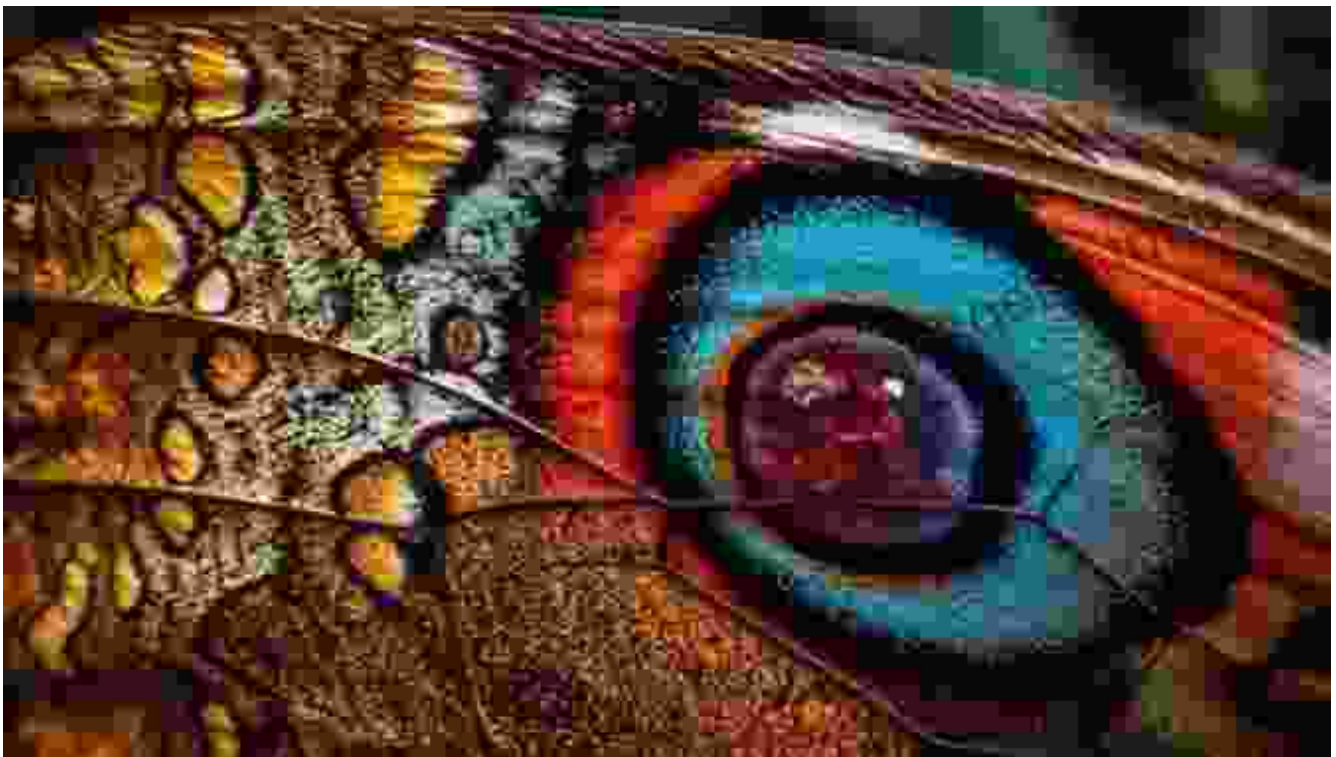

Experience the awe-inspiring presence of a lion in its natural habitat, where its regal bearing and piercing gaze leave an unforgettable impression.

Stalk alongside the elusive leopard as it prowls through the dense undergrowth. Admire the vibrant stripes of a zebra as it gallops across the open plains. Encounter the gentle giants, elephants, as they roam through the savanna, their massive trunks reaching for the acacia trees.

Microscopic Marvels: Unveiling The Hidden World

Venture beyond the visible realm and discover the intricate world of microscopic creatures, where beauty unfolds on a scale unseen by the naked eye. Marvel at the delicate structure of a butterfly's wing, its vibrant scales shimmering with iridescent colors.

Observe the mesmerizing dance of microscopic organisms, their movements creating a symphony of life within a single drop of water.

Discover the intricate patterns on the shell of a sea anemone, each tiny tentacle reaching out to capture food.

The Illustrators' Canvas: Capturing Nature's Essence

Behind each breathtaking illustration lies the artistry and dedication of talented illustrators, who have dedicated their lives to capturing the essence of the animal kingdom. Their skilled hands guide the brushstrokes, bringing to life the intricate details, vibrant colors, and captivating expressions of these magnificent creatures.

Witness the dedication and artistry of illustrators as they bring the animal kingdom to life through the strokes of their brushes.

From the realism of John James Audubon to the whimsical style of Beatrix Potter, illustrators have played a pivotal role in shaping our understanding

and appreciation of the natural world. Their works have inspired generations, fostering a deep connection between humans and animals.

Conservation Through Illustration: Preserving Nature's Legacy

In an era of unprecedented environmental challenges, animal illustrations serve as a powerful tool for conservation. They raise awareness about endangered species, highlighting their plight and the urgent need for protection.

LOSING OUR STRIPES

STOP THE DEMAND; STOP THE POACHING

97% POPULATION LOST
Percentage of tigers in the wild compared to the last century only.

1,031 INTERCEPTED IN TRADE
Combined total value of 1031 tigers intercepted in trade in the form of poached and illegally traded skins, cubs, bones, and body parts.

FEWER THAN 3,200 TIGERS EXIST IN THE WILD

There were once 100,000 tigers in the wild. There are now fewer than 3,200 tigers left in the wild.

Until the demand ends, this sale will not stop. Wild tigers are being killed illegally for their skins and body parts.

The wild tiger has been vanishing from the world for over two centuries. It is now on the edge of extinction. In 1973, there were 100,000 tigers in the wild. Today, there are fewer than 3,200 tigers left in the wild. The tiger is being killed for its skin, its bones, its body parts, and its cubs. The tiger is being killed for its skin, its bones, its body parts, and its cubs. The tiger is being killed for its skin, its bones, its body parts, and its cubs.

93% HISTORIC RANGE LOST
Over the past 100 years, 93% of the tiger's historic range has been lost. This is due to habitat loss, poaching, and other factors.

3 OF THE 9 SUBSPECIES OF TIGER HAVE GONE EXTINCT

The Caspian, Amur, and Javanese tigers have gone extinct. Only three tigers remain in the wild.

INDIA TRAFFICING HOTSPOT

India is a major trafficking hotspot for tigers. This is due to the high demand for tiger skins and body parts.
